PUBLIC NOTICE

December 14, 2023

OLD OAK LANE PHASE IV CONSTRUCTION CONTINUES IN SHENANDOAH FARMS

Phase IV construction of the Old Oak Lane improvement project has begun. This project will impact the usage of Old Oak Lane between Venus Branch Road and Old Oregon Road. This section of Old Oak Lane will be closed for approximately 6 months while the project is completed. Phase IV includes installation of three (3) box culverts and significant improvements to the roadway and drainage system. The following is the expected timeline of events for Phase IV. Please be aware that inclement weather can have a negative effect on the planned timeline.

November 2023 - Message boards placed at Venus Branch and Old Oak prior to closure.

December 8, 2023 – The first set of box culverts arrived and were set. Backfilling has begun.

Public Works is currently working on subgrade and drainage work from Old Oregon back toward box culvert #3.

January 9, 2024 – The second series of box culverts is the estimated to arrive.

(Early) February 2024– The third set of box culverts is currently estimated to arrive (pending weather).

March 15, 2024 – Anticipated completion of box culverts.

Spring 2024 – Subgrade and asphalt work completion.

June 1, 2024 – Anticipated final construction completion as reported to VDOT.

The total estimated cost of this project is \$1,600,000. The revenue sharing project is funded in part by Warren County, Virginia Department of Transportation and Shenandoah Farms Sanitary District.

The Warren County Department of Public Works remains committed to completing the project and will issue updates as the constructions continues. If you have questions or need additional information, please contact the Public Works Department at 540.636.1543
